Editorial Review

About the Author

Sheldon M. Ross is a professor in the Department of Industrial Engineering and Operations Research at the University of Southern California. He received his Ph.D. in statistics at Stanford University in 1968. He has published many technical articles and textbooks in the areas of statistics and applied probability. Among his texts are *A First Course in Probability*, *Introduction to Probability Models*, *Stochastic Processes*, and *Introductory Statistics*. Professor Ross is the founding and continuing editor of the journal *Probability in the Engineering and Informational Sciences*, the Advisory Editor for *International Journal of Quality Technology and Quantitative Management*, and an Editorial Board Member of the *Journal of Bond Trading and Management*. He is a Fellow of the Institute of Mathematical Statistics and a recipient of the Humboldt US Senior Scientist Award.

Users Review

From reader reviews:

Richard McCain:

Reading a guide tends to be new life style with this era globalization. With reading through you can get a lot of information that can give you benefit in your life. With book everyone in this world could share their idea. Ebooks can also inspire a lot of people. Many author can inspire their particular reader with their story as well as their experience. Not only the story that share in the guides. But also they write about advantage about something that you need case in point. How to get the good score toefl, or how to teach children, there are many kinds of book which exist now. The authors nowadays always try to improve their ability in writing, they also doing some research before they write to the book. One of them is this *A First Course in Probability (9th Edition)*.

William Bixby:

Playing with family within a park, coming to see the coastal world or hanging out with buddies is thing that usually you will have done when you have spare time, in that case why you don't try thing that really opposite from that. 1 activity that make you not experience tired but still relaxing, trilling like on roller coaster you already been ride on and with addition associated with. Even you love *A First Course in Probability (9th Edition)*, you may enjoy both. It is good combination right, you still would like to miss it? What kind of hang type is it? Oh can occur its mind hangout men. What? Still don't buy it, oh come on its identified as reading friends.

Barbara Morton:

Your reading 6th sense will not betray anyone, why because this *A First Course in Probability (9th Edition)* reserve written by well-known writer we are excited for well how to make book that can be understand by anyone who read the book. Written in good manner for you, still dripping wet every ideas and producing

skill only for eliminate your own personal hunger then you still uncertainty A First Course in Probability (9th Edition) as good book not simply by the cover but also by the content. This is one book that can break don't ascertain book by its handle, so do you still needing a different sixth sense to pick this kind of!? Oh come on your reading through sixth sense already alerted you so why you have to listening to an additional sixth sense.

Judith Craig:

Many people spending their time frame by playing outside with friends, fun activity along with family or just watching TV the whole day. You can have new activity to enjoy your whole day by reading a book. Ugh, think reading a book can really hard because you have to take the book everywhere? It ok you can have the e-book, delivering everywhere you want in your Smartphone. Like A First Course in Probability (9th Edition) which is keeping the e-book version. So , why not try out this book? Let's notice.
