**A Problem Solving Approach to Mathematics for Elementary School Teachers, Books a la Carte Edition plus NEW MyMathLab with Pearson eText -- Access Card Package (12th Edition)** By Rick Billstein, Shlomo Libeskind, Johnny Lott

**NOTE:** This edition features the same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value—this format costs significantly less than a new textbook. Before purchasing, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products.

XXXXXXXXXXXXXXXXXX

*For courses in mathematics for elementary teachers.  
This package includes MyMathLab®.*

### **The Gold Standard for the New Standards**

**A Problem Solving Approach to Mathematics for Elementary School Teachers** has always reflected the content and processes set forth in today's new state mathematics standards and the Common Core State Standards (CCSS). In the **Twelfth Edition**, the authors have further tightened the connections to the CCSS and made them more explicit. This text not only helps students learn the math by promoting active learning and developing skills and concepts—it also provides an invaluable reference to future teachers by including professional development features and discussions of today's standards.

### **Personalize learning with MyMathLab**

MyMathLab is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. MyMathLab includes assignable algorithmic exercises, the complete eBook, tutorial and classroom videos, eManipulatives, tools to personalize learning, and more.

## **Editorial Review**

### About the Author

Rick Billstein is a Professor of Mathematics at the University of Montana. He has worked in mathematics teacher education at this university for over 40 years and his current research is in the areas of curriculum development and mathematics teacher education. He teaches courses for future teachers in the Mathematics Department. He served as the site director for the Show-Me Project, an NSF-funded project supporting the dissemination and implementation of standards-based middle grades mathematics curricula. He worked on the NSF grant Tinker Plots to develop new data analysis software and he serves on the Advisory Boards for several other national projects. From 1992-1997, he directed the NSF-funded Six Through Eight Mathematics (STEM) middle school mathematics curriculum project and is now directing the Middle Grades MATH Thematics Phase II Project. Dr. Billstein has published articles in over 20 different journals, and has co-authored over 40 books, including ten editions of *A Problem Solving Approach to Mathematics for Elementary Teachers*. He typically does about 25 regional and national presentations per year and has worked in mathematics education at the international level. He presently serves on the Editorial Board of NCTM's *Mathematics Teaching in the Middle School*. Dr. Billstein was recently awarded the George M. Dennison Presidential Faculty Award for Distinguished Accomplishment at the University of Montana.

Shlomo Libeskind is a professor in the mathematics department at the University of Oregon in Eugene, Oregon, and has been responsible there for the mathematics teaching major since 1986. In addition to teaching and advising pre-service and in-service teachers, Dr. Libeskind has extensive writing experience (books, articles, and workshop materials) as well as in directing mathematics education projects. In teaching and in writing, Dr. Libeskind uses a heuristic approach to problem solving and proof; in this approach the reasonableness of each step in a solution or proof is emphasized along with a discussion on why one direction might be more promising than another. As part of his focus on the improvement of the teaching of mathematics, Dr. Libeskind is also involved at many levels locally, nationally, and worldwide in the evaluation of mathematics teacher preparation programs. In his home state, he is actively involved in schools and councils, as well as in reviewing materials for the state standards for college admission. Most recently (spring 2008) he visited teacher colleges in Israel as a Fulbright Fellow. During this visit he conducted observations and critiques of the preparation of mathematics teachers at several colleges in Northern Israel. Dr. Libeskind received his Bachelor's and Master's Degrees in Mathematics at the Technion (Israel Institute of Technology) and his PhD in Mathematics at the University of Wisconsin, Madison.

Johnny W. Lott began his teaching career in the public schools of DeKalb County, Georgia, outside Atlanta. There he taught mathematics in grades 8-12. He also taught one year at the Westminster Schools, grades 9-12, and one year in the Pelican, Alaska, school, grades 6-12. Johnny is the co-author of several books and has written numerous articles and other essays in the "Arithmetic Teacher," "Teaching Children Mathematics," "The Mathematics Teacher," "School Science and Mathematics," "Student Math Notes," and "Mathematics Education Dialogues." He was the Project Manager for the "Figure This!" publications and website developed by the National Council of Teachers of Mathematics (NCTM) and was project co-director of the State Systemic Initiative for Montana Mathematics and Science (SIMMS) Project. He has served on many NCTM committees, has been a member of its Board of Directors, and was its president from April 2002-April 2004. Dr. Lott is Professor Emeritus from the Department of Mathematical Sciences at The University of Montana, having been a full professor. He is currently the Director of the Center for Excellence in Teaching and Learning, Professor of Mathematics, and Professor of Education at the University of Mississippi. Additionally, he is on the Steering Committee of the Park City Mathematics Institute, works with the International Seminar, the Designing and Delivering Professional Development Seminar, and is

editor for its high school publications. His doctorate is in mathematics education from Georgia State University.

## **Users Review**

### **From reader reviews:**

#### **Shannon Harvey:**

Hey guys, do you want to find a new book to study? Maybe the book with the subject A Problem Solving Approach to Mathematics for Elementary School Teachers, Books a la Carte Edition plus NEW MyMathLab with Pearson eText -- Access Card Package (12th Edition) suitable to you? Typically the book was written by well-known writer in this era. Typically the book entitled A Problem Solving Approach to Mathematics for Elementary School Teachers, Books a la Carte Edition plus NEW MyMathLab with Pearson eText -- Access Card Package (12th Edition) is a single of several books that will everyone read now. That book was inspired a lot of people in the world. When you read this e-book you will enter the new shape that you ever know previous to. The author explained their strategy in the simple way, so all of people can easily to know the core of this book. This book will give you a large amount of information about this world now. So that you can see the represented of the world in this book.

#### **Bobby Hall:**

Reading a e-book can be one of a lot of activity that everyone in the world likes. Do you like reading book and so. There are a lot of reasons why people like it. First reading a e-book will give you a lot of new information. When you read a guide you will get new information simply because book is one of numerous ways to share the information or their idea. Second, reading a book will make you actually more imaginative. When you reading a book especially fiction book the author will bring someone to imagine the story how the characters do it anything. Third, you are able to share your knowledge to other folks. When you read this A Problem Solving Approach to Mathematics for Elementary School Teachers, Books a la Carte Edition plus NEW MyMathLab with Pearson eText -- Access Card Package (12th Edition), you are able to tell your family, friends and soon about your guide. Your knowledge can inspire different ones, make them reading a book.

#### **Doris Stanford:**

The reserve entitled A Problem Solving Approach to Mathematics for Elementary School Teachers, Books a la Carte Edition plus NEW MyMathLab with Pearson eText -- Access Card Package (12th Edition) is the e-book that recommended to you you just read. You can see the quality of the e-book content that will be shown to a person. The language that writer use to explained their way of doing something is easily to understand. The article author was did a lot of research when write the book, therefore the information that they share to your account is absolutely accurate. You also could possibly get the e-book of A Problem Solving Approach to Mathematics for Elementary School Teachers, Books a la Carte Edition plus NEW MyMathLab with Pearson eText -- Access Card Package (12th Edition) from the publisher to make you more enjoy free time.

**Joyce Tower:**

Playing with family within a park, coming to see the coastal world or hanging out with buddies is thing that usually you could have done when you have spare time, in that case why you don't try issue that really opposite from that. A single activity that make you not feeling tired but still relaxing, trilling like on roller coaster you are ride on and with addition of knowledge. Even you love A Problem Solving Approach to Mathematics for Elementary School Teachers, Books a la Carte Edition plus NEW MyMathLab with Pearson eText -- Access Card Package (12th Edition), you may enjoy both. It is fine combination right, you still would like to miss it? What kind of hang-out type is it? Oh come on its mind hangout guys. What? Still don't have it, oh come on its named reading friends.
