General, Organic, and Biological Chemistry: Structures of Life, Books a la Carte Edition (5th Edition) By Karen C. Timberlake

NOTE: This edition features the same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value—this format costs significantly less than a new textbook. Before purchasing, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products.

XXXXXXXXXXXXXXXXXX

General, Organic, and Biological chemistry (2-semester).

Give allied health students the chemistry they need...how and when they need it!

Designed to prepare students for health-related careers, *General, Organic, and Biological Chemistry: Structures of Life* breaks chemical concepts and problem solving into clear, manageable pieces, ensuring students follow along and stay motivated throughout their first, and often only, chemistry course. Karen Timberlake's friendly writing style, student focus, vetted and refined clinical chemistry problems, and engaging health-related applications help today's students make connections between chemistry and their intended careers as they develop the problem-solving skills they'll need beyond the classroom.

The **Fifth Edition** fully integrates the text with MasteringChemistry to provide an interactive and engaging experience. New Construct a Concept Map activities help students connect ideas through video solutions and live demonstrations, while the text and media establish a clinical focus that ties chemistry directly to allied health. Instructors can also assign MasteringChemistry's new Dynamic Study Modules, which enable students to remediate core math and chemistry

skills outside of class, freeing professors to focus on GOB Chemistry concepts and problem solving during class.

Also available with MasteringChemistry®

MasteringChemistry from Pearson is the leading online homework, tutorial, and assessment system, designed to improve results by engaging students before, during, and after class with powerful content. Instructors ensure students arrive ready to learn by assigning educationally effective content before class, and encourage critical thinking and retention with in-class resources such as Learning Catalytics. Students can further master concepts after class through traditional and adaptive homework assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to assess student understanding and misconceptions.

Mastering brings learning full circle by continuously adapting to each student and making learning more personal than ever—before, during, and after class.

Editorial Review

About the Author

Karen Timberlake is professor emeritus of chemistry at Los Angeles Valley College, where she taught chemistry for allied health and preparatory chemistry for 36 years. She received her bachelor's degree in chemistry from the University of Washington and her Master's degree in biochemistry from the University of California at Los Angeles.

Professor Timberlake has been writing chemistry textbooks for 30 years. During that time, her name has become associated with the strategic use of pedagogical tools that promote student success in chemistry and the application of chemistry to real-life situations. More than one million students have learned chemistry using texts, laboratory manuals, and study guides written by Karen Timberlake. In addition to Chemistry: An Introduction to General, Organic, and Biological Chemistry, Tenth Edition, she is also the author of General, Organic, and Biological Chemistry, Structures of Life, Second Edition and Basic Chemistry, Second Edition, along with the accompanying Study Guide with Solutions for Selected Problems, Laboratory Manual, and Essentials Laboratory Manual. Professor Timberlake belongs to numerous science and educational organizations including the American Chemical Society (ACS) and the National Science Teachers Association (NSTA). She was a Western Regional Winner of Excellence in College Chemistry Teaching Award given by the Chemical Manufacturers Association. In 2004, she received the McGuffey Award in Physical Sciences from the Text and Academic Authors Association, for her textbook Chemistry: An Introduction to General, Organic, and Biological Chemistry, Eighth Edition, which has demonstrated excellence over time. In 2006, she received the Textbook Excellence Award for the first edition of Basic Chemistry. She has participated in education grants for science teaching including the Los Angeles Collaborative for Teaching Excellence (LACTE) and a Title III grant at her college. She speaks at conferences and educational meetings on the use of student-centered teaching methods in chemistry to promote the learning success of students. Her husband, Bill, is also a professor emeritus of chemistry and has contributed to writing this text. He taught preparatory and organic chemistry at Los Angeles Harbor College for 36 years. When the Professors Timberlake are not writing textbooks, they relax by hiking, traveling, trying new restaurants, cooking, and playing tennis. The Timberlakes' son, John, and daughter-in-law, Cindy, are involved in preparing materials for English language learners. Their grandson, Daniel, and granddaughter, Emily, don't know what they want to be yet.

Users Review

From reader reviews:

Jeraldine Thurman:

This General, Organic, and Biological Chemistry: Structures of Life, Books a la Carte Edition (5th Edition) book is simply not ordinary book, you have it then the world is in your hands. The benefit you get by reading this book is usually information inside this book incredible fresh, you will get data which is getting deeper anyone read a lot of information you will get. This specific General, Organic, and Biological Chemistry: Structures of Life, Books a la Carte Edition (5th Edition) without we know teach the one who studying it become critical in thinking and analyzing. Don't be worry General, Organic, and Biological Chemistry: Structures of Life, Books a la Carte Edition (5th Edition) can bring when you are and not make your carrier space or bookshelves' become full because you can have it in the lovely laptop even telephone. This General,

Organic, and Biological Chemistry: Structures of Life, Books a la Carte Edition (5th Edition) having good arrangement in word in addition to layout, so you will not really feel uninterested in reading.

Steve Duran:

Often the book General, Organic, and Biological Chemistry: Structures of Life, Books a la Carte Edition (5th Edition) has a lot associated with on it. So when you check out this book you can get a lot of profit. The book was published by the very famous author. Tom makes some research just before write this book. This book very easy to read you will get the point easily after reading this book.

Sheree Gonzalez:

Do you have something that you enjoy such as book? The e-book lovers usually prefer to decide on book like comic, short story and the biggest an example may be novel. Now, why not seeking General, Organic, and Biological Chemistry: Structures of Life, Books a la Carte Edition (5th Edition) that give your fun preference will be satisfied by means of reading this book. Reading habit all over the world can be said as the method for people to know world better then how they react when it comes to the world. It can't be stated constantly that reading behavior only for the geeky person but for all of you who wants to end up being success person. So , for every you who want to start reading as your good habit, you may pick General, Organic, and Biological Chemistry: Structures of Life, Books a la Carte Edition (5th Edition) become your own starter.

James Chavez:

Reading a book to be new life style in this yr; every people loves to read a book. When you study a book you can get a great deal of benefit. When you read publications, you can improve your knowledge, mainly because book has a lot of information onto it. The information that you will get depend on what forms of book that you have read. If you need to get information about your study, you can read education books, but if you act like you want to entertain yourself you can read a fiction books, these kinds of us novel, comics, and soon. The General, Organic, and Biological Chemistry: Structures of Life, Books a la Carte Edition (5th Edition) offer you a new experience in looking at a book.
