## **Handbook of Non-Ferrous Metal Powders: Technologies and Applications**

By Oleg D Neikov, I. B. Murashova, Nicholas A. Yefimov, Stanislav Naboychenko

The manufacture and use of the powders of non-ferrous metals has been taking place for many years in what was previously Soviet Russia, and a huge amount of knowledge and experience has built up in that country over the last forty years or so. Although accounts of the topic have been published in the Russian language, no English language account has existed until now.

Six prominent academics and industrialists from the Ukraine and Russia have produced this highly-detailed account which covers the classification, manufacturing methods, treatment and properties of the non-ferrous metals (aluminium, titanium, magnesium, copper, nickel, cobalt, zinc, cadmium, lead, tin, bismuth, noble metals and earth metals).

The result is a formidable reference source for those in all aspects of the metal powder industry.

- \* Covers the manufacturing methods, properties and importance of the following metals: aluminium, titanium, magnesium, copper, nickel, cobalt, zinc, cadmium, noble metals, rare earth metals, lead, tin and bismuth.
- \* Expert Russian team of authors, all very experienced
- \* English translation and update of book previously published in Russian.

## **Editorial Review**

### **Users Review**

#### **From reader reviews:**

##### **James Conner:**

Why don't make it to be your habit? Right now, try to ready your time to do the important work, like looking for your favorite guide and reading a e-book. Beside you can solve your condition; you can add your knowledge by the guide entitled Handbook of Non-Ferrous Metal Powders: Technologies and Applications. Try to face the book Handbook of Non-Ferrous Metal Powders: Technologies and Applications as your close friend. It means that it can to be your friend when you really feel alone and beside that of course make you smarter than ever. Yeah, it is very fortunated for yourself. The book makes you more confidence because you can know every little thing by the book. So , let me make new experience as well as knowledge with this book.

##### **Dave Thomas:**

A lot of people always spent their very own free time to vacation or perhaps go to the outside with them loved ones or their friend. Do you realize? Many a lot of people spent they will free time just watching TV, or maybe playing video games all day long. If you need to try to find a new activity honestly, that is look different you can read a new book. It is really fun for you personally. If you enjoy the book that you simply read you can spent the whole day to reading a guide. The book Handbook of Non-Ferrous Metal Powders: Technologies and Applications it is very good to read. There are a lot of individuals who recommended this book. We were holding enjoying reading this book. If you did not have enough space to develop this book you can buy the e-book. You can m0ore effortlessly to read this book from your smart phone. The price is not too costly but this book offers high quality.

##### **Keri Yokum:**

As we know that book is important thing to add our information for everything. By a reserve we can know everything we wish. A book is a pair of written, printed, illustrated as well as blank sheet. Every year has been exactly added. This guide Handbook of Non-Ferrous Metal Powders: Technologies and Applications was filled regarding science. Spend your free time to add your knowledge about your science competence. Some people has various feel when they reading a book. If you know how big selling point of a book, you can feel enjoy to read a reserve. In the modern era like at this point, many ways to get book that you just wanted.

**Robin Curtin:**

Reading a publication make you to get more knowledge from it. You can take knowledge and information from your book. Book is published or printed or created from each source this filled update of news. On this modern era like right now, many ways to get information are available for you. From media social such as newspaper, magazines, science book, encyclopedia, reference book, fresh and comic. You can add your understanding by that book. Do you want to spend your spare time to spread out your book? Or just seeking the Handbook of Non-Ferrous Metal Powders: Technologies and Applications when you desired it?
