Handbook of Mathematics and Computational Science

By John W. Harris, Horst Stöcker

Handbook of Mathematics and Computational Science By John W. Harris, Horst Stöcker

This book gathers thousands of up-to-date equations, formulas, tables, illustrations, and explanations into one invaluable volume. It includes over a thousand pages of mathematical material as well as chapters on probability, mathematical statistics, fuzzy logic, and neural networks. It also contains computer language overviews of C, Fortran, and Pascal.

Handbook of Mathematics and Computational Science By John W. Harris, Horst Stöcker Bibliography

- Sales Rank: #920527 in Books
- Published on: 1998-07-23
- Original language: English
- Number of items: 1
- Dimensions: 9.57" h x 2.04" w x 6.51" l, 3.50 pounds
- Binding: Hardcover
- 1028 pages

Editorial Review

Review
From the reviews
"It is the best text of its type that I have come across to date - an excellent resource for anyone involved in mathematical practice up to and including degree standard (...) it is a pleasant experience to flick through it at leisure, dropping in here and there on some of the thousands of results the book holds. It is beautifully illustrated and set out (...) we have here a comprehensive volume whose worth will not readily fade with time (...) If you feel the need to own a mathematical reference to see you through school and university mathematics to graduation, you couldn't do much better than to buy this one" (MATHEMATICS TODAY)

Users Review

From reader reviews:

Nancy Dabney:

Spent a free time to be fun activity to try and do! A lot of people spent their free time with their family, or all their friends. Usually they undertaking activity like watching television, planning to beach, or picnic in the park. They actually doing same every week. Do you feel it? Do you want to something different to fill your own free time/ holiday? Could be reading a book might be option to fill your free of charge time/ holiday. The first thing you ask may be what kinds of guide that you should read. If you want to try look for book, may be the book untitled Handbook of Mathematics and Computational Science can be fine book to read. May be it is usually best activity to you.

James Hubbard:

A lot of people always spent their own free time to vacation or perhaps go to the outside with them family members or their friend. Did you know? Many a lot of people spent many people free time just watching TV, or perhaps playing video games all day long. In order to try to find a new activity that is look different you can read some sort of book. It is really fun for yourself. If you enjoy the book that you just read you can spent 24 hours a day to reading a reserve. The book Handbook of Mathematics and Computational Science it is extremely good to read. There are a lot of individuals who recommended this book. These were enjoying reading this book. In the event you did not have enough space to develop this book you can buy often the e-book. You can m0ore easily to read this book from your smart phone. The price is not to cover but this book features high quality.

Pablo Cowart:

Do you like reading a guide? Confuse to looking for your selected book? Or your book ended up being rare? Why so many concern for the book? But just about any people feel that they enjoy to get reading. Some people likes studying, not only science book but novel and Handbook of Mathematics and Computational Science or others sources were given expertise for you. After you know how the truly great a book, you feel

desire to read more and more. Science e-book was created for teacher or even students especially. Those publications are helping them to increase their knowledge. In various other case, beside science guide, any other book likes Handbook of Mathematics and Computational Science to make your spare time much more colorful. Many types of book like this.

Barbara Jackson:

What is your hobby? Have you heard that will question when you got college students? We believe that that issue was given by teacher to the students. Many kinds of hobby, All people has different hobby. So you know that little person including reading or as reading become their hobby. You need to know that reading is very important in addition to book as to be the factor. Book is important thing to add you knowledge, except your own teacher or lecturer. You discover good news or update with regards to something by book. Numerous books that can you decide to try be your object. One of them is Handbook of Mathematics and Computational Science.
