Editorial Review

From the Publisher

Among many other merits, this text offers an authoritative review of federal OSHA and FDA regulations applying to acupuncture, based on extensive dialogue with, and review by, agency personnel. This text should be required reading in acupuncture colleges, and should not be overlooked by current practitioners. Administrators of clinics and insurance plans where acupuncture is being integrated would do well to consult A.R.M. It will doubtless prevent many lawsuits...and will probably save a few lives!

From the Author

Based on what I learned in the course of researching this text, I had to radically re-train myself. I rest much easier knowing my office protocols and clinical procedures now meet prevailing medico-legal standards. It is not difficult to substantially reduce the risks of harm, when you fully understand the dimensions of harm and the strategies of risk control.

From the Back Cover

Acupuncture Risk Management - The Essential Practice Standards & Regulatory Compliance Reference.

An indispensable reference for acupuncturists, and an important resource for all complementary medicine providers, medical administrators, insurers and regulatory agencies.

"This text lights the way toward a mature American acupuncture, integrated into our medical, regulatory and cultural environments. A.R.M. will transform how acupuncture is taught and practiced." M. Harrison Nolting, N.D., L.Ac., Dept. Chair, Acupuncture & Oriental Medicine, Bastyr University

"Kailin shares his mastery of the multiple contexts of acupuncture in America. A.R.M. advocates safety and regulatory compliance as necessary components of clinical integrity." Alex Holand, M.Ac., L.Ac., Author, Voices of Qi.
