Contemporary Postcolonial Theory: A Reader From Padmini Mongia

There is a crisis in contemporary postcolonial theory: while an enormous body of challenging research has been produced under its auspices, severely critical questions about the validity and usefulness of this theory have also been raised. This Reader is positioned at the juncture where it can address these contestations. It makes available some of the "classics" of the field, engages with the issues raised by contemporary practitioners, and offers several of the arguments that strongly critique postcolonial theory.

Editorial Review

Review

'Good value for money.' The Telegraph, Calcutta

From the Back Cover

The texts are arranged in three sections: the first deals with definitional problems and contests; the next with the 'disciplining of knowledge' where the multiple resonances of the word 'disciplining' are all addressed; and the third with the location of practice, which explores the relation between intellectual practice and historical conditions. With its substantial contextualizing introduction, this selection of key texts offers students an invigorating entry into contemporary post colonial theory.
