Technical Textile Yarns (Woodhead Publishing Series in Textiles) From Woodhead Publishing

Technical yarns are produced for the manufacture of technical textiles. As the range of technical textiles is rapidly increasing, an understanding of the range of yarns available and their properties is important, in order to be able to meet the requirements of the intended end-use.

Part one of the book begins by reviewing the advances in yarn production. Topics examine the advances in textile yarn spinning, modification of textile yarn structures, yarn hairiness and its reduction and coatings for technical textile yarns. The second group of chapters describes the range of technical yarns, such as electro-conductive textile yarns, novel yarns and plasma treated yarns for biomedical applications. Technical sewing threads and biodegradable textile yarns are also discussed.

Technical textile yarns provides essential reading for yarn and fabric manufacturers, textile scientists, technicians, engineers and technologists, covering a wide range of areas within textile applications. This book will also be an important information source for academics and students.

- Provides a comprehensive overview of the variety of technical textile yarns available along with individual characteristics and production methods
- Documents advances in textile yarn spinning and texturing featuring compact, rotor and friction spinning
- Assesses different types of technical yarns including plasma-treated yarns for biomedical applications and hybrid yarns for thermoplastic composites

Editorial Review

About the Author

Dr R. Alagirusamy is Professor in the Department of Textile Technology at Indian Institute of Technology, New Delhi. He has completed his Ph.D. from Georgia Tech, USA. He has authored several chapters in bestsellers in textiles and possesses several research papers published in reputed national and international journals.

Dr Apurba Das is Associate Professor in the Department of Textile Technology, Indian Institute of Technology (IIT), New Delhi, India. He has wide experience in industries, including research and development and quality management. He has published more than 100 research papers in journals and conferences and written chapters in several books. His main areas of teaching and research interests include clothing comfort, yarn manufacturing, non-conventional spinning techniques, evaluation of textile materials and technical textiles.

Users Review

From reader reviews:

Charles Anthony:

Here thing why that Technical Textile Yarns (Woodhead Publishing Series in Textiles) are different and reliable to be yours. First of all examining a book is good but it really depends in the content of computer which is the content is as yummy as food or not. Technical Textile Yarns (Woodhead Publishing Series in Textiles) giving you information deeper since different ways, you can find any e-book out there but there is no book that similar with Technical Textile Yarns (Woodhead Publishing Series in Textiles). It gives you thrill looking at journey, its open up your current eyes about the thing in which happened in the world which is maybe can be happened around you. It is easy to bring everywhere like in playground, café, or even in your approach home by train. For anyone who is having difficulties in bringing the imprinted book maybe the form of Technical Textile Yarns (Woodhead Publishing Series in Textiles) in e-book can be your option.

Sonia Cramer:

The book with title Technical Textile Yarns (Woodhead Publishing Series in Textiles) contains a lot of information that you can find out it. You can get a lot of gain after read this book. This particular book exist new know-how the information that exist in this book represented the condition of the world at this point. That is important to yo7u to know how the improvement of the world. That book will bring you throughout new era of the glowbal growth.
