Intellectual Property Law: Text, Cases, and Materials By Tanya Aplin, Jennifer Davis

This book provides a complete resource for undergraduate and postgraduate students of intellectual property law. The first text of its kind in the field, it combines extracts from major cases and secondary materials with critical commentary from experienced teachers in the field.

The book deals with all areas of intellectual property law in the UK: copyright, trade marks and passing off, confidential information, industrial designs, patent, procedure and enforcement. It also tackles topical areas, such as the application of IP law to new technologies and character merchandising. While the focus of the book is on IP law in a domestic context, it provides international, EU and comparative law perspectives on major issues. It also addresses the wider policy implications of legislative and judicial developments in the area.

It is an ideal resource for all students of intellectual property law who need cases, materials and commentary in a single volume.

Editorial Review

Review

Intellectual Property Law: Text, Cases and Materials aims to provide a 'one-stop resource' on intellectual property and largely achieves this aim. It is both thought-provoking and accessible which encourages the reader to undertake further reading by, perhaps, delving deeper into the extracts or considering the further reading. *Student Law Journal*
