Manual of Equine Emergencies: Treatment & Procedures By James A. Orsini DVM Dipl ACVS, Thomas J. Divers DVM Dipl ACVIM ACVECC, James A. Orsini, Thomas J. Divers

Designed for ease of use in the clinical setting, this up-to-date resource provides all of the essential information needed on equine emergency medicine and surgery. In a logical, clear presentation, the reference outlines step-by-step direction of the procedures needed to stabilize the equine patient. Color illustrations enhance the written text. The text is updated throughout and includes a number of new chapters and illustrations, as well as aesthetic changes that make key information easier to locate. Authored by experts in the field, this one-of-a-kind manual presents data on principles and procedures, organ system examination, neonatology, shock and temperature related problems, interpretation of lab tests, pharmacology and toxicology, and management of special problems.

- Presents the medical and surgical principles and procedures for all organs and body systems, including common signs of distress.
- Includes nutritional guidelines for each disease.
- Easy-to-use format includes a quick reference guide to the equipment needed to perform emergency procedures, treatments presented in at-a-glance outline format, and easy-to-read tables that summarize key information on poisons.
- Describes laboratory tests, including details on how to obtain the best samples and interpret test results.
- Offers coverage of not only common medical emergencies, but uncommon emergencies as well.
- Features useful appendices on normal clinical values, vaccination schedules, product manufacturers, and registry information for various breeds.
- Includes new chapters on diagnostic ultrasound, pain management, fluid therapy, high-risk pregnancy, regional perfusion, aging guidelines/dentistry, esophagostomy, temporomandibular arthrocentesis, endoscopy of the navicular bursa, corneal scraping, nerve blocks of the eye, caudal epidural catheterization, blood coagulation disorders, emergency measurements of body fluids, and diseases seen in Europe.
- Presents more than 100 new illustrations and 24 new color plates of GI

disorders and toxic plants.

- Features updated and expanded drug information, including dosages and drug reactions.
- Thumb tabs mark chapter names and page bars make the drug dosage tables easier to locate.
- "Must Know" information is called out with a new logo.
