The FLU-LOGY: Two Contagious Tales of Deadly Global Pandemic By Jacqueline Druga

Throughout history there have been several thousand different strains of influenza. Each year hundreds are active. Chances are, this year, you will catch one of those strains. You will cough, sneeze, and your body will ache. Without a second thought, you'll take a double dose of green liquid, go to bed, and swear you'll feel better in the morning. Not this time. In 1918 forty million people succumbed to a particular strain of swine flu. It appeared out of nowhere, and just as quickly as it surfaced, the Spanish Flu vanished. Gone for good. Or so we thought. Though mankind has anticipated its resurfacing for some time, mankind is ill prepared. Mutated and with a vengeance, the Spanish Flu returns. In a world blackened with plague, a glimmer of light exists in the small town of Lodi, Ohio. They shine as a sanctuary because they are 'flu-free' In the wake of the reality that they are spared, the spirit and strength of Lodi is tested. It becomes a fight against what is morally right or wrong in an increasingly difficult battle to stay healthy and alive until the flu has run its course. Amazon.com and GoodReads reader praise for THE FLU: "Another excellent apocalyptic story..." "One of the BEST pandemic novels I've read!" "I highly recommend THE FLU!"

Editorial Review

About the Author

Jacqueline Druga is a native of Pittsburgh, Pa. She is a prolific writer and filmmaker. Her published works include genres of all types, but favors post-apocalypse and apocalypse writing. Currently she is in production of her third full-length feature film in which she has written and is producing.

A single mother of four, Jacqueline is also a musician. She resides in a small town outside of Pittsburgh with her family. Of all her accomplishments, Jacqueline is most proud of being a grandmother. Her grandchildren reside with her and are the light of her life.

Users Review
