**The United States Holocaust Memorial Museum Encyclopedia of Camps and Ghettos, 1933-1945: Ghettoes in German-Occupied Eastern Europe (Volume II)** From Indiana University Press

This volume offers a comprehensive account of how the Nazis conducted the Holocaust throughout the scattered towns and villages of Poland and the Soviet Union. It covers more than 1,150 sites, including both open and closed ghettos. Regional essays outline the patterns of ghettoization in 19 German administrative regions. Each entry discusses key events in the history of the ghetto; living and working conditions; activities of the Jewish Councils; Jewish responses to persecution; demographic changes; and details of the ghetto's liquidation. Personal testimonies help convey the character of each ghetto, while source citations provide a guide to additional information. Documentation of hundreds of smaller sites—previously unknown or overlooked in the historiography of the Holocaust—make this an indispensable reference work on the destroyed Jewish communities of Eastern Europe.

## **Editorial Review**

### Review

"The editors correctly state that no other work provides the same level of detail and supporting material about the Nazi ghetto and concentration camp system.... This user-friendly reference work belongs on every library bookshelf. Essential." -- CHOICE

(CHOICE)

"An outstanding work of scholarship that marks a major achievement in studies of the Shoah. Martin Dean and his expert contributors draw on archival records, survivor testimonies, and publications in countless languages to produce vivid accounts of hundreds of the Holocaust sites now known as 'ghettos.' The results both confirm and unsettle conventional wisdom.... The details are unforgettable: a ghetto that consisted of only two houses; an orphanage known as a 'children's cage'; Jews who went on foot from their homes to the killing center of Treblinka." ?Doris L. Bergen, author of *War and Genocide: A Concise History of the Holocaust*

"This user-friendly reference work belongs on every library bookshelf." ?CHOICE: Social & Behavioral Sciences

"[A] staggering achievement.... at around 2,000 pages it's an even more impressive compendium of scholarly research and editorial enterprise than Volume I... Without the efforts of this consortium of international contributors, most of these places... might have disappeared from historical memory and slipped into oblivion." ?The Jewish Daily Forward

"A meticulously researched account of Nazi ghettos in Eastern Europe. The editors have mined all possible resources in many languages and presented their findings in succinct, lucid language. The production of the volume is exemplary. It will serve as the standard reference work on the subject." ?Zvi Gitelman, University of Michigan

"The massive two-volume set... focuses specifically on the ghettos of Nazi-occupied Eastern Europe. It stands without doubt as the definitive reference guide on this topic in the world today. This is not hyperbole, but simply a recognition of the meticulous collaborative research that went into assembling such a massive

collection of information.... Every serious scholar of the Holocaust in the East and every academic library should have this encyclopedia on hand." ?Holocaust and Genocide Studies

"This magnificent collective effort, uniting the research and expertise of leading scholars from around the world, provides a fundamental new reference for the history of the Holocaust. Anyone who wishes to understand the variety of Jewish experience in the ghettos and the scale of the destruction of a whole European world must consult this encyclopedia." ?Timothy Snyder, author of Bloodlands: Europe Between Hitler and Stalin

"An essential addition to any public or academic library with significant collections of Holocaust literature or Jewish genealogy." ?Jewish Libraries Newsletter

"Using a variety of scholarly and archival materials, the editors provide a very detailed analysis and history of the events that took place in the towns, villages, and cities of German-occupied Eastern Europe.... A rich source of information, this will make an excellent addition to reference collections." ?Library Journal

About the Author

Geoffrey P. Megargee and Martin Dean are applied research scholars at the Center for Advanced Holocaust Studies, United States Holocaust Memorial Museum.
