**Child Abuse and Neglect: Second Edition** By Monica L. McCoy, Stefanie M. Keen

Child abuse and neglect are examined in this new edition -- the latest research, what it entails, and how to recognize and report it. Federal law mandates the reporting of suspected child maltreatment by many professionals. This book will appeal to those who one day find themselves in the role of a mandated reporter.

Engaging learning tools are integrated throughout:

Updated and more case examples including recent events that captured the public's attention such as the case of Jessica Beagley convicted of child abuse for forcing her son to ingest hot sauce and of Latrece Jones convicted of negligent homicide for failing to have her son in a car seat. The book opens with the background on child maltreatment including its history, an overview of the research, and the risk factors. Details about mandated reporting are also explored. Different forms of maltreatment – physical abuse, neglect, psychological maltreatment, sexual abuse, fetal abuse, and Munchausen by Proxy Syndrome – are then examined, along with the new chapter on resiliency. Incidence estimates and consequences for each type of maltreatment are provided. Legal issues including forensic interviewing are then reviewed. The book concludes with an example of what happens to a child after a report is filed along with suggestions for preventing child maltreatment. Intended as a text for courses in child abuse, child maltreatment, family violence, or sexual and intimate violence taught in psychology, human development, education, criminal justice, social work, sociology, women's studies, and nursing, this book is also an invaluable resource to workers who are mandated reporters of child maltreatment and/or anyone interested in the problem.

Editorial Review

*"One of the primary reasons I chose this text was the writing. My students find it clear, engaging and undergraduate appropriate. ... Most texts are overly detailed in some spots and missing-in-action for others. ... I also love that the authors have put mandated reporting before the types of abuse. Students are fascinated by this topic. ... Far more than any other text, this book gets it right. I would definitely use this text."* – **Cathy K. Brown, Montclair State University, USA** *"The writing style is clear and engaging. ... The cases, boxes, discussion questions, and other teaching tools in this book are about the best I have seen. ... The things I really like are ... the glossary, the appendix of abbreviations, the state laws and court cases, boxed inserts, and discussion questions. ... I have seen nothing on the market that comes close to matching McCoy and Keen when it comes to clear definitions, relevant legal cases and statutes, and inserts and questions."* – **Phil Davis, Georgia Southern University, USA** *"I selected it ... because it was by far the most informative of the texts I reviewed. ... The writing style ... accommodates its undergraduate audience while still keeping more advanced students interested. ... Dr. McCoy did an excellent job with her overview of the literature. ... The discussion questions ... often stimulate debate among my students. ... I had more than one social work major tell me that [the chapter on mandated reporting] was more informative ... than entire classes in the social work program. ... This text ... is exceptionally well done."* – **Stephanie Walker, University of Wyoming, USA** *"The book is very nicely written, especially for an undergraduate audience. ... I like the authors' idea re: adding "Profiles." I too have many students who ask me ... [about] the possibilities following graduation. ... The text offers breadth and depth at an appropriate level."* – **C. Theresa Yancey, Georgia Southern University, USA** About the Author
