Neufert Architects' Data, Third Edition By Ernst Neufert, Peter Neufert, Bousmaha Baiche, Nicholas Walliman

Architects' Data provides an essential reference for the initial design and planning of a building project. Organised largely by building type, and with over 6000 diagrams, it provides a mass of data on spatial requirements and also covers planning criteria and considerations of function and siting.

Most illustrations are dimensioned and each building type includes plans, sections, site layouts and design details. There are substantial new sections on:

- building components
- services
- heating
- lighting
- thermal and sound insulation
- fire protection
- designing for the disabled

An extensive bibliography and a detailed set of metric/imperial conversion tables are included.

Since it was first published in Germany in 1936, Ernst Neufert's handbook has been progressively revised and updated through 35 editions and many translations. This Third Edition of the English language version has been revised for the first time in 20 years and completely reworked, with 40% more material, to provide a major new edition for an international readership.

Editorial Review

Review

"*Neufert's Architects' Data* was the first book I bought when I started my studies in architecture. It was invaluable for me then and it is still a useful aid in my designs. "

Cesar Pelli, Architect

"With this thorough rewrite, Neufert has produced, yet again, an invaluable reference book. Ideal for students specifically, and hard-pressed architects generally, this is a great source book for the basics."

The Architects' Journal

Language Notes

Text: English (translation)

Original Language: German

From the Back Cover

Architects' Data is an essential aid in the initial design and planning of a building project. Organised largely by building type (from airports to zoos), it covers user requirements, planning criteria, basic dimensions and considerations of function and siting.

There are additional sections on building components, services and building physics, fire protection, and designing for the disabled.

Most illustrations are dimensioned, and each building type includes plans, sections, site layouts and design details. There is a detailed set of metric/imperial conversion units and an extensive bibliography.

Users Review

From reader reviews:

Mary Rohe:

Do you have favorite book? When you have, what is your favorite's book? Reserve is very important thing for us to know everything in the world. Each reserve has different aim as well as goal; it means that e-book has different type. Some people really feel enjoy to spend their a chance to read a book. They can be reading whatever they acquire because their hobby is reading a book. Why not the person who don't like reading a book? Sometime, particular person feel need book if they found difficult problem or exercise. Well, probably you should have this Neufert Architects' Data, Third Edition.

Matthew Gregg:
