Taking the Leap: Freeing Ourselves from Old Habits and Fears By Pema Chodron

Best-seller Pema Chödrön draws on the Buddhist concept of *shenpa* to help us see how certain habits of mind tend to “hook” us and get us stuck in states of anger, blame, self-hatred, and addiction. The good news is that once we start to recognize these patterns, they instantly begin to lose their hold on us and we can begin to change our lives for the better.

“This path entails uncovering three basic human qualities,” explains Pema. “They are natural intelligence, natural warmth, and natural openness. Everyone, everywhere, all over the globe, has these qualities and can call on them to help themselves and others.”

This book gives us the insights and practices we can immediately put to use in our lives to awaken these essential qualities. In her friendly and encouraging style, Pema Chödrön helps us take a bold leap toward a new way of living—one that will bring about positive transformation for ourselves and for our troubled world.

Editorial Review

From Publishers Weekly

This gently encouraging book by popular teacher Chödrön (*When Things Fall Apart; The Places That Scare You*) applies Buddhist wisdom to the problems of deeply ingrained reactions. An American Buddhist nun in the lineage of Tibetan master Chogyam Trungpa, she writes that we already have what we need to change and heal. Chödrön focuses on the preverbal moment—called *shenpa* in Tibetan—in which individuals are hooked into harmful stories, emotions and actions within the flux of their experiences. Clear descriptions of how this process works are accompanied by simple techniques to begin to break the cycle. Her suggestions can be easily practiced by anyone at any time without meditation training, although she presents the benefits of sitting meditation. With anecdotes from her teachers and examples from her own and others' lives, Chödrön demonstrates that people can stop their suffering and access their natural intelligence, warmth and openness. Throughout, she emphasizes the global implications of personal change. Among her strengths are compassion for the difficulty of human existence and her willingness to acknowledge her own failings. This short guide provides valuable tools for change in uncertain times. (*Sept. 8*)
