# Advanced Computer Architectures: A Design Space Approach (International Computer Science Series)

By Dezso Sima, Terence Fountain, Peter Karsuk

Advanced Computer Architectures: A Design Space Approach (International Computer Science Series) By Dezso Sima, Terence Fountain, Peter Karsuk

This timely book provides an unconventional and up-to-date overview of all the important computer architectures and is one of the first texts to present all the relevant concepts of advanced architecture classes by exploring their design spaces.

Advanced Computer Architectures will prove an indispensable guide for anyone who needs to be acquainted with the relevant concepts and solutions introduced in recent years to the dramatically changing world of computer architecture. For the student of advanced level courses in computer architecture, this book will provide a comprehensive and accessible overview of the subject whilst its strong practical orientation will make it an invaluable reference for the practitioner.

Editorial Review

From the Back Cover

This timely book provides an unconventional and up-to-date overview of all the important computer architectures and is one of the first texts to present all the relevant concepts of advanced architecture classes by exploring their design spaces.

Advanced Computer Architectures will prove an indispensable guide for anyone who needs to be acquainted with the relevant concepts and solutions introduced in recent years to the dramatically changing world of computer architecture. For the student of advanced level courses in computer architecture, this book will provide a comprehensive and accessible overview of the subject whilst its strong practical orientation will make it an invaluable reference for the practitioner.

Features:

- Explores design spaces for each architecture class and exposes evolution of concepts and design issues
- Provides an up-to-date overview of significant architecture classes, including unique in-depth coverage of superscalar architectures as well as multithreaded, shared and distributed memory MIMDs, and associative and neural architectures
- Identifies which concepts and design choices have been made use of in important processors and illustrates significant trends and surpassed and viable concepts
- Case studies and tables show microarchitectural details of relevant processors, including the PentiumPro, PowerPC 604, PowerPC 620 and R10000, allowing comparisons between them

About the Author

Dezső Sima is Director of Informatics at the Kandó Polytechnic in Budapest where he has specialized in computer architecture since 1972. He has published two books and over thirty papers.

Terence Fountain is a Doctor of Physics and Astronomy at University College London and has previously published in the field of computer architecture.

Péter Kacsuk is Head of the Laboratory of Parallel and Distributed Systems at the KFI-MSZKI Research Institute of the Hungarian Academy of Sciences.

Users Review

From reader reviews:

Anthony Valdez:

What do you regarding book? It is not important along with you? Or just adding material when you need something to explain what the ones you have problem? How about your free time? Or are you busy man? If you don't have spare time to accomplish others business, it is give you a sense of feeling bored faster. And you have spare time? What did you do? Every person has many questions above. The doctor has to answer that question mainly because just their can do this. It said that about publication. Book is familiar in each person. Yes, it is correct. Because start from on jardín de infancia until university need this Advanced Computer Architectures: A Design Space Approach (International Computer Science Series) to read.

William Quesada:

Playing with family in a very park, coming to see the coastal world or hanging out with friends is thing that usually you might have done when you have spare time, then why you don't try issue that really opposite from that. One particular activity that make you not feeling tired but still relaxing, trilling like on roller coaster you are ride on and with addition of knowledge. Even you love Advanced Computer Architectures: A Design Space Approach (International Computer Science Series), you are able to enjoy both. It is excellent combination right, you still would like to miss it? What kind of hangout type is it? Oh can happen its mind hangout folks. What? Still don't have it, oh come on its named reading friends.

Raymond Nelson:

This Advanced Computer Architectures: A Design Space Approach (International Computer Science Series) is great guide for you because the content that is full of information for you who always deal with world and possess to make decision every minute. This kind of book reveal it details accurately using great organize word or we can claim no rambling sentences inside it. So if you are read the item hurriedly you can have whole information in it. Doesn't mean it only gives you straight forward sentences but tough core information with wonderful delivering sentences. Having Advanced Computer Architectures: A Design Space Approach (International Computer Science Series) in your hand like keeping the world in your arm, details in it is not ridiculous one particular. We can say that no reserve that offer you world with ten or fifteen tiny right but this book already do that. So , this is good reading book. Heya Mr. and Mrs. hectic do you still doubt that?

Robert Howard:

Reading a publication make you to get more knowledge from it. You can take knowledge and information from the book. Book is published or printed or highlighted from each source which filled update of news. On this modern era like at this point, many ways to get information are available for you. From media social including newspaper, magazines, science book, encyclopedia, reference book, novel and comic. You can add your knowledge by that book. Are you hip to spend your spare time to spread out your book? Or just looking for the Advanced Computer Architectures: A Design Space Approach (International Computer Science Series) when you needed it?
