Biochemical Engineering and Biotechnology, Second Edition By Ghasem Najafpour

Biochemical Engineering and Biotechnology, 2nd Edition, outlines the principles of biochemical processes and explains their use in the manufacturing of every day products. The author uses a direct approach that should be very useful for students in following the concepts and practical applications. This book is unique in having many solved problems, case studies, examples and demonstrations of detailed experiments, with simple design equations and required calculations.

- Covers major concepts of biochemical engineering and biotechnology, including applications in bioprocesses, fermentation technologies, enzymatic processes, and membrane separations, amongst others
- Accessible to chemical engineering students who need to both learn, and apply, biological knowledge in engineering principals
- Includes solved problems, examples, and demonstrations of detailed experiments with simple design equations and all required calculations
- Offers many graphs that present actual experimental data, figures, and tables, along with explanations

Editorial Review

About the Author

Author of Biochemical Engineering & Biotechnology is a distinguished professor in Chemical Engineering and Chairman of Biotechnology Research Center, Babol Noshirvani University of Technology, Iran. He is an educated scholar from University of Arkansas, USA with strong background in biological processes. He is deeply involved in research and teaching in biochemical engineering subjects and conducted many practical researches in biofuel and biochemical engineering.

He has served as academic member of University of Mazandran, Visiting Professor at University of Waterloo Canada and University of Arkansas, USA (1990-1991), University Science Malaysia (USM) and Noshirvani University of Technology. He also spent his sabbatical leave at University of Arkansas, USA (1992-1993). He has expanded his scientific research activities on single cell protein (SCP), Microbial fuel cells, renewable energy and synthetic fuels. Since 2005, he was qualified and appointed as professor in Faculty of Chemical Engineering at Babol Noshirvani University of Technology, Iran. He is serving as Editor in Chief of World Applied Sciences Journal, Middle East Journal of Scientific Research. Also editor in Chief of Iranica Journal of Energy and Environment since 2006. In addition, he is editor of Journal of Environmental Chemistry and Ecotoxicology, Academic Journals, since 2007. He is an active member of many international institutes, editor and reviewers of number of international journals and many scientific societies. Often he is invited to many international conferences as keynote speakers. In past decades, he has supervised more than 144 master and 24 Ph.D. students. He has published more than 330 research papers in international journals and has written 8 books in the field of Chemical Engineering and Biotechnology. In year 2006, he has published his book with Elsevier entitled "Biochemical Engineering & Biotechnology". He won number of awards for research achievements and winner of gold medal for the Invention/Innovation sponsored by Ministry of Science, Technology Malaysia, 2004. His researches for formulation of transparent soap and natural biodegradable liquid detergent from palm oil's fatty acids, was patented with SIRIM Berhad, Malaysia (2003). Currently, he is supervising number of PhD scholars and conducting top research projects on microbial fuel cells, biodiesel biohydrogen, biofuel from algae, bioethanol from agro-wastes, enzyme technology, renewable energy, heterogeneous catalytic processes, wastewater treatment and biological treatment processes.

Users Review

From reader reviews:

Troy Riley:

Do you one of people who can't read gratifying if the sentence chained in the straightway, hold on guys this specific aren't like that. This Biochemical Engineering and Biotechnology, Second Edition book is readable by means of you who hate the straight word style. You will find the details here are arrange for enjoyable reading experience without leaving even decrease the knowledge that want to give to you. The writer connected with Biochemical Engineering and Biotechnology, Second Edition content conveys thinking easily to understand by most people. The printed and e-book are not different in the information but it just different such as it. So , do you continue to thinking Biochemical Engineering and Biotechnology, Second Edition is not loveable to be your top listing reading book?

Wilma Shay:

This book untitled Biochemical Engineering and Biotechnology, Second Edition to be one of several books that best seller in this year, this is because when you read this reserve you can get a lot of benefit onto it. You will easily to buy this book in the book retailer or you can order it through online. The publisher of the book sells the e-book too. It makes you more easily to read this book, as you can read this book in your Smartphone. So there is no reason to you to past this e-book from your list.

Thomas Major:

Is it an individual who having spare time in that case spend it whole day by simply watching television programs or just telling lies on the bed? Do you need something new? This Biochemical Engineering and Biotechnology, Second Edition can be the reply, oh how comes? A book you know. You are therefore out of date, spending your extra time by reading in this new era is common not a geek activity. So what these guides have than the others?

Meredith Bailey:

As a university student exactly feel bored for you to reading. If their teacher inquired them to go to the library or even make summary for some book, they are complained. Just small students that has reading's internal or real their pastime. They just do what the instructor want, like asked to go to the library. They go to presently there but nothing reading very seriously. Any students feel that reading is not important, boring and can't see colorful photos on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore , this Biochemical Engineering and Biotechnology, Second Edition can make you truly feel more interested to read.
