Chess Openings Theory and Practice By I. A. Horowitz

“Speaking for myself and for players of my strength, Chess Openings: Theory and Practice is the greatest aid I have ever seen for preparing for a tournament. Speaking for all other players, the book is a "must." Current thinking on all important lines is meticulously presented, offering myriad, clear-cut ideas a completely new and effective arsenal of weapons. “-Samuel Reshevsky, United States Open Champion”. Chess Openings Theory and Practice is a remarkable book, unequaled by any book of that era or since. It is not a mere openings book with long columns of moves followed at the end by punctuation marks such as + -- or =. It presents opening ideas and games, often including the first game where each opening was played, plus the history of the opening, the names of famous players who played this opening and the ideas and plans on which the opening is based. It provides "idea variations". These are variations that may not actually occur in actual practice, but are what you would play if given the chance. No other book does that, at least not in English and not to this extent.

Editorial Review

About the Author

Israel Albert Horowitz was an International Master of chess. He is most remembered today for the books he wrote about chess, many of which are still recommended for students of the game. He was born November 15, 1907 in Brooklyn, New York and died on January 18, 1973. In compiling he was assisted by former World Champion Max Euwe and by a team of Dutch and New York collaborators including Jack Straley Battell, Hans Bouwmeester, Theodore A. Dunst, Arthur Feldman, Ernst Grunfeld, William Muhring, P. L. Rothenberg, Aben Rudy, Theodor D. Van Scheltinga, H. L. Tan and Carel B. van den Berg. The Americans were Jack Straley Battell (1909-1985), Theodore A. Dunst (1907-1985), Arthur Feldman (1893-1983), P. L. Rothenberg (1906 – 1992) and Aben Rudy (still alive). The Dutch were Hans Bouwmeester (born 1929, still alive), Ernst Grünfeld (1893-1962), Willem Jan (Pim) Mühring (1913-1999), Theo Daniel van Scheltinga (1914-1994), Hiong Liong Tan (1938-2009), and Carel Benjamin van den Berg (1924-1971).

Users Review

From reader reviews:

David Musick:

Hey guys, do you desire to find a new book to see? Maybe the book with the concept Chess Openings Theory and Practice suitable to you? Often the book was written by popular writer in this era. The actual book entitled Chess Openings Theory and Practice is one of several books which everyone reads now. This book has inspired lots of people in the world. When you read this e-book you will enter the new age that you have never known just before. The author explained their plan in a simple way, consequently all of people can easily be aware of the core of this reserve. This book will give you a lot of information about this world now. So you can see the representation of the world in this particular book.

Nancy Samuel:

This Chess Openings Theory and Practice is a great book for you because the content which is full of information for you who always deal with the world and still have to make a decision every minute. This specific book reveals its facts accurately using great coordinate words or we can state no rambling sentences within it. So if you read the item hurriedly you can have whole information in it. Doesn't mean it only provides you with straight forward sentences but tough core information with beautiful delivering sentences. Having Chess Openings Theory and Practice in your hand like keeping the world in your arm, data in it is not a ridiculous one particular. We can say that no book that offers you the world within ten or fifteen seconds right but this reserve already does that. So, this is a good reading book. Hi Mr. and Mrs. occupied do you still doubt in which?

Harry Anderson:

Is it you actually who having spare time subsequently spend it whole day by means of watching television programs or just lying on the bed? Do you need something new? This Chess Openings Theory and Practice

can be the solution, oh how comes? The new book you know. You are therefore out of date, spending your free time by reading in this fresh era is common not a geek activity. So what these textbooks have than the others?

Ann Goddard:

As we know that book is significant thing to add our expertise for everything. By a reserve we can know everything we wish. A book is a pair of written, printed, illustrated as well as blank sheet. Every year seemed to be exactly added. This guide Chess Openings Theory and Practice was filled in relation to science. Spend your spare time to add your knowledge about your scientific research competence. Some people has different feel when they reading a new book. If you know how big benefit of a book, you can truly feel enjoy to read a book. In the modern era like now, many ways to get book that you wanted.
