The Watch Repair Course and Introduction To Watch Repair By John Tope

If you collect and enjoy watches, want to learn watch repair, this package of 2 watch repair DVD courses is for you. No previous watch repair experience needed. Watch and learn how to repair watches by video. 5 DVDs and a course manual is included.

Start with "Introduction to Watch Repair" to learn the basics. This is for the beginner who has never worked with watches and for those who want a better understanding of the basics to correctly get started in watch repair.

"The Watch Repair Course" is a beginner course that follows the "Introduction to Watch Repair". In this course you will immediately start working on watches.

This is the first time this much detailed information has been made available for the watch repair beginner. Many details have been addressed that are not found in any other books, or any other watch repair courses designed for the beginner. Several different watches are examined in this course. Many other courses use only one watch through the entire course. This watch repair course includes several different American Watches and how to service and repair the English fusee watch movement.

This watch repair 2 course package consists of 1 DVD for the "Introduction to Watch Repair". 2 volumes for a total of 4 more DVD discs playable worldwide. A course manual is included. Total course running time approximately: 5 hours and 30+ minutes for all 5 DVDs.

There is a detailed 38 page watch repair manual full of additional tips, illustrations and diagrams. Also a DVD - video program outline separated by DVDs and divided into chapters for each DVD. Great for going back to segments in any of the DVDs you may need to review. All tools, materials, and equipment used in this video course are listed in the manual for easy reference to type, make, and where they can be purchased. The manual also includes more information, notes and tips not included in the video portion of the courses.
